MARIAM HEGAB

INTERACTION DESIGNER/PROGRAMMER (BFA CANDIDATE)

mariam.hegab@icloud.com | mariamhegab.com | Mclean, Virginia

EDUCATION

Homeschool program, **High School Diploma**, Graduated: 2024
The George Washington University, Washington, DC
Bachelor of Fine Arts in Interaction Design - Graphic design minor
Corcoran School of the Arts and Design
Expected Graduation: 2027

PROJECTS AND PROFESSIONAL EXPERIENCE

Mom & Pop - Barista (2025 - Present)
Greet and seat guests and prepare espresso drinks and café beverages while maintaining a welcoming, efficient, and organized front-of-house experience.

National Gallery of Art – Interactive Gallery Experience (Aug 2025 – Dec 2025)
In a 4 month course project, I partnered with the National Gallery of Art to explore how museum experiences can center complexity and multiple perspectives over singular narratives. Applied human-centered design methodologies including ethnographic observation, stakeholder interviewing, and participatory research to identify systemic challenges and opportunities. Synthesized qualitative data through affinity mapping and systems mapping to reveal relationships and leverage points. Developed contextually-grounded design recommendations supported by iterative prototyping and user testing.

Cracks and Reforms: The 1920s through the GW Collection – Head Project Manager (Spring 2026)
– Led a team of 14 as Head Project Manager, coordinating GW Art History students, the Corcoran Graphic Design Program, and the Luther W. Brady Art Gallery on an exhibition catalogue.
– Directed the catalogue's design from cover to endnotes, including the table of contents and essay spreads, for the show on view Aug 26 – Dec 12, 2026.
– Developed the visual system: color-coded sections, a bold type hierarchy, and image-led layouts.

Daily Rituals Arduino Project (2024 -2025)
– Year long academic research and development project
– Built an Arduino-based prototype exploring everyday behavioral patterns of a diverse demographic
– Used sensors, wood/3D-printed parts, and interaction design methods to test behaviors though various objects.

Gigi Haqq - Creative Director & Brand Model (2023–2024)
– Led creative direction for product shoot concepts, brand visuals, and campaign aesthetics.
– Modeled for digital campaigns and social media content, aligning visuals with brand identity.
– Collaborated with the founder on creative strategy, color palettes, and brand positioning.
– Represented the brand at pop-up events and community markets, engaging customers and supporting sales.

TECHNICAL SKILLS

- User interface design
- Product development
- Software development
- Graphic design
- Media management
- Community outreach
- 3D prototyping/rendering
- Rapid prototyping
- Laser cutting/3D printing
- JavaScript
- HTML
- Python

LANGUAGES

English: Fluent
Arabic: Intermediate
